

# weforyou sustainable non-woven products

100% biodegradable, compostable and sustainable

## weforyou vision

The Austrian weforyou Group was founded with the vision of a constant move from fossil raw materials to more sustainable solutions through research and development. We focus on the development of products that are sustainable through optimized bio-based raw materials and processing.

## weforyou quality standards

All of weforyou's biopolymers are produced at our own production site in Suqian, China. Since we are the developer and producer of the non-woven material, the material can be fully customized and optimized for each application.

Every non-woven material part is machine-cut and for sewn non-woven products, weforyou's high sewing standards result in a strong and durable material quality which makes the material also ideal for reuse applications such as shopping bags. weforyou's sewing professionals produce the highest sewing quality in the industry and every single product is quality assured.

## raw materials

- weforyou non-woven materials are made out of our own weforyou biopolymers
- Consists of 100% bio-based materials
- 100% non-genetically modified organism
- No staple food used for any non-woven products
- Optimized transportation route which leads to less CO<sub>2</sub> for transport
- Plants processed within 48 hours after harvesting
- The production's leftover materials are recycled

sugar cane

bitter cassava

no staple food

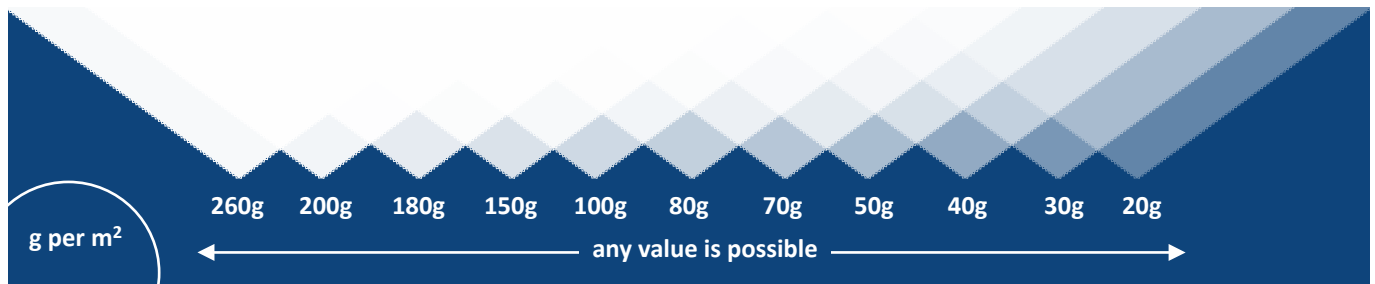

## certifications

COMPOSTABLE  
DIN EN 13432

non-woven material thickness is fully optimized for the applications

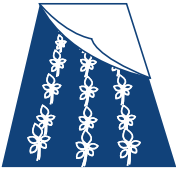

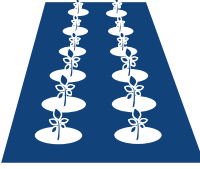

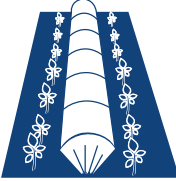

### weforyou sustainable non-woven packaging products

| Product   | Material Range (g/m <sup>2</sup> ) | Width Range (mm) | Technology                    | Color  |
|---|------------------------------------|------------------|-------------------------------|--|
|  <b>Non-Woven Shopping Bag</b> | 70 - 120                           | 20 - 2600        | Spunbonded, small and big dot | White up to 10 tons, different colors available starting from 10 tons order volume |
|  <b>Suit Cover</b>            | 70 - 120                           | 20 - 2600        | Spunbonded, small and big dot | White up to 10 tons, different colors available starting from 10 tons order volume |
|  <b>Wardrobe</b>             | 40 - 150                           | 20 - 2600        | Spunbonded, small and big dot | White up to 10 tons, different colors available starting from 10 tons order volume |
|  <b>Storage box</b>          | 30 - 120                           | 20 - 2600        | Spunbonded, small and big dot | White up to 10 tons, different colors available starting from 10 tons order volume |

### weforyou sustainable hydrophilic non-woven product

| Product   | Material Range (g/m <sup>2</sup> ) | Width Range (mm) | Technology               | Color |
|---|------------------------------------|------------------|--------------------------|-------|
|  <b>Hydrophilic Non-Wovens for hygienic products like diapers and lady care products</b> | 20 - 40                            | 20 - 2600        | Spunbonded, sesame point | White |

| Product   | Material Range (g/m <sup>2</sup> ) | Width Range (mm) | Technology                    | Color  |
|---|------------------------------------|------------------|-------------------------------|--|
|  <b>Agricultural Cover to protect fields</b> | 20 - 120                           | 20 - 2600        | Spunbonded, small and big dot | White up to 10 tons, different colors available starting from 10 tons order volume |
|  <b>Agricultural bedding material</b>        | 20 - 40                            | 20 - 2600        | Spunbonded, small and big dot | White up to 10 tons, different colors available starting from 10 tons order volume |
|  <b>Agricultural tunnel</b>                  | 30 - 100                           | 20 - 2600        | Spunbonded, small and big dot | White up to 10 tons, different colors available starting from 10 tons order volume |
|  <b>Fruit bagging</b>                       | 20 - 40                            | 20 - 2600        | Spunbonded, small and big dot | White up to 10 tons, different colors available starting from 10 tons order volume |
|  <b>Plant cover</b>                        | 30 - 120                           | 20 - 2600        | Spunbonded, small and big dot | White up to 10 tons, different colors available starting from 10 tons order volume |
|  <b>Anti-insect / Anti-bird non-woven</b>  | 20 - 40                            | 20 - 2600        | Spunbonded, small and big dot | White up to 10 tons, different colors available starting from 10 tons order volume |

weforyou group - social statement

weforyou Group production in Suqian, China

The weforyou Group is the world’s second largest PLA biopolymer producer and has an annual capacity of 50,000 tons of pure PLA and other biopolymer compounds. We produce under socially and ethically sound conditions in our factory in China and pay attention to fair wages, social protection, staff security and working hours. We audit sub-contractors on site to make sure that our high standards are strictly followed.
